Summary

Full Stack Web Developer looking for a position in web development. Strong candidate who has worked in state government agencies. Strong communicator with collaboration and creative problem-solving skills and have demonstrated the ability to meet deadlines consistently. Previous positions as an IVR developer and Systems Analyst have helped prepare me for this role as they've provided me with experience in working with teams, the application development life cycle and responding to the needs of the client.

Technical Skills

Languages: JavaScript ES6+, CSS3, HTML5, SQL, NoSQL

Applications: GitHub, MongoDB, MySQL

Tools: Express, React, Node, Handlebars, Bootstrap

Projects

Purly

<https://purly.herokuapp.com/>

<https://github.com/hectorromo06/purly>

This site was created as a class project with five other students. The application is for people who are into knitting at all skill levels allowing them to find patterns for their projects and add new ones. I created the models, queries, mutations and the 'Add Pattern' React.js form.

Technologies Used

MongoDB, Mongoose, GraphQL, React, Express.js, Node.js, UIKit, CSS3, HTML

My Garden Planner

<https://garden-planner-90482.herokuapp.com/>

<https://github.com/ptran77/garden-planner>

This site was created as a class project with three other students. This site is dedicated to those seeking to learn about gardening and plan their garden. I created the models, the 'Single Fruit/Vegetable' page and the 'Add Fruit/Vegetable' form.

Technologies Used

MySQL, Sequelize ODM, Node.js, Express.js, Handlebars, Tailwind CSS, HTML5, CSS3

Tune Blast

<https://mpeterson56.github.io/Tune-Blast/>

<https://github.com/mpeterson56/Tune-Blast>

This site was created as a class project with one other student. This site allows a person to look up song lyrics from their favorite artists. I handled all the JavaScript programming for the application.

Technologies Used

JavaScript, HTML5, UIKit, CSS3
